LAST CHANCE TODAY.

A surprising number of good citizens have not yet registered. Wilcox's men and the Democrats are all in, but men who have much at stake in the furtherance of the Republican idea of good government are holding aloof.

Should these citizens not register today it will be their LAST CHANCE FOR TWO YEARS. Very likely there will be special elections in the meantime, for local option and other things, but names that are not put on the register now, will not figure among lists of eligible voters at any election until the general one of 1904.

will not help you now. You must register every two years.

REGISTER TODAY.

WILCOX OR KUHIO.

No one of any standing at Washington is disposed to help Delegate Wilcox in any way. The President has made it known to Hawaiian visitors that he has no confidence in him. Leaders of the Senate and House have expressed their distrust of both his ability and probity. He has no party in Congress to act with and at the last "Cherokee strip" by the unwillingness of either party to give him a hospitable is painfully apparent. hand on its side. As a pseudo-Dem-

Hawaiians would go on the payroll in coast line, could take the offensive. great numbers. It would mean prosperity for them. But there will be no money for public works to be had at the solicitation of a man of Wilcox's antecedents and character. In that respect the past presages the future.

The moral is to elect Prince Kuhio "Send that boy to Congress and we'll all turn in and do our best for him," said Senator Mitchell on leaving Hawaii. That represents the attitude of the Republican leaders towards a Republican Delegate. Nobody says anything of the kind about Wilcox. Inthe President's words: "Why do you is adequately defended on the sea. send a man like that to Congress?"

the Waikiki duck ponds and pig ranch- ly seen of an afternoon in a hack on es live among them and keep well, does King street, does not find many benot prove that these places are safe for lievers. While it is not impossible that white people living in their neighbor- Wright may be in the city, it may well bood. By centuries of experience the be taken for granted that he does not Asiatic has become as immune to filth go about publicly. as the Arab is to stagnant drinking water; but the white man is very differently constituted. From a sentimental side it is a pity to disturb the peaceful denizens of the hog tract, but the need of a cleansed and purified Honolulu is paramount. For these reasons the decision of the Board to clear out the ducks and pigs along the seashore will meet general approval.

The Chamber of Commerce did the just thing in backing up the Board of Health in the matter of the charges brought by Delegate Wilcox. These charges are utterly irresponsible and we happen to know that they disgusted the Senatorial Commission. Even Burton could not stomach them despite the ease with which he assimilated some of Humphreys' libels. However it is well on general principles to have the Board commended to Washington by so powerful a non-partisan body as the Chamber of Commerce, and to have Wilcox's charges formally characterized as they deserve.

As a rule better fruit and better veg-South. That is one of the reasons why certain imports from Seattle by preference to San Francisco would be acceptable to Honolulu consumers. Such things as potatoes and apples could also be had more cheaply from the Sound than from the Bay. There is another potent reason for encouraging trade with Seattle in that better prices are had there for Hawaiian products than those given in San Francisco.

A HALT IN NAVAL PLANS. It is said at Washington that the naval committees of both houses have no ified Secretary Moody that Congress cannot be depended on to authorize new battleships at the coming session. This announcement naturally causes dismay in the ranks of naval men and progressive statesmen who see in the creation of a great fleet the surest guarantee of peace. It is undeniable that the tendencies in Europe are toward courses which would compel the United States to take the defensive. Gradually but surely Europe-continental Europe, we should say-is arriving at concert of action against what the Kaiser has called "the American terror," meaning the menace of American Besides this is a growing attitude of hostility to the Monroe doctrine. Europe feels that it ought to have as fair a chance to build up loyal colonies in Latin America as it has in Africa; and Germany, having organized a branch of the Fatherland in Southern Brazil is not disposed to accept an American limitation of its work in that quarter. If things keep on going this way abroad, the United States will feel compelled to make a showing of force. By being prepared that it will not be assailed; but if, when an emergency comes, its representation on the sea is comparatively weak, hostile powers may feel that the psychological moment has come to rain their blows upon the nation whose prosperity they envy and whose ambi-

tions they dread. Since the beginning of the Spanish war this government has especially tried to keep pace with the new German naval marine. So far, things are about even. But if Congress pauses Because you registered two years ago now, the time will soon come when our naval rating will fall measurably below the German, and this, in view of the facts given above, and the addition. al one that our coast lines are infinitely longer than those of Germany and her possessions, would be a grave matter. We must defend about 3000 miles of Atlantic, Gulf and Pacific coast, Cuba, Porto Rico, the canal entrances, Hawaii, Guam, Tutuila and the Philippines, and look after our sea-going commerce besides. When it is remembered that it was all the North Atlantic fleet could do in the recent maneuvers to keep watch of the 100 miles of coast drawing of seats he was driven to the comprising the area of the problem, the nadequacy of our floating armament

Speaking of German progress in ocrat, running on a Home Rule plat- things maritime, we find that by 1908 form which endorses Roosevelt, the Germany will have affoat, in addition Democrats of the House would reject to the present fleet, thirty modern battleships, twenty large cruisers, forty-Now Hawaiians get no credit from five small cruisers, and sixteen divihaving such a man represent them and sions of torpedo boats. Such a fleet what is more they get no work. If we would very much exceed our own, as had a Delegate who could get money the latter stands now, and the greater for needed public improvements here, part of it, owing to the short German

The reasons governing the naval committees in their new departure are not given, as yet, to the press. It may be the members feel that, between the progress made in both aerial and submarine navigation, the efficiency of the battleship is now in doubt. If that is true the people have the right to expect from Congress a very liberal provision for more boats of the Holland type and for experiments with dirigible balloons. But it is strongly to be hoped that the naval committees have not reached the conclusion, as they did a year before stead, the leaders on both sides echo the Spanish war, that this country

BODY AND BRAINS.

JAMES W. GIRVIN.

Whether the brains of men are being developed at the expense of the bodies is not a question that we can settle, but there is no question that there are many individual cases where the body is weaker than it ought to be.

To produce big healthy brains and big healthy bodies take Scott's Emulsion. Childhood is the time to commence.

The effort of Scott's Emulion is to make nature do her best with the materials on hand. It checks all those little weaknesses and faults of nourishdevelopment.

Nothing more strengthening for weak children.

Ringing Noises

In the ears (how disagreeable they are!) become chronic and cause much uneasiness and even temporary distraction. They are signs of catarrh; other signs are droppings in the throat, nasal sounds of the voice, impaired taste, smell and hearing.

Catarrh is a constitutional disease, originating in impure blood, and requires a constitutional remedy.

"I suffered from catarrh in the head and loss of appetite and sleep. My blood was thin and I felt bad all over most of the time. I decided to try Hood's Sarsaparilla and now have no symptoms of catarric have a good appetite, and sleep well. I heartily recommend Hood's Sarsaparilla to all my friends." R. Long, California Junc-tion, Iowa.

Hood's Sarsaparilla Cures catarrh of the nose, throat, bowels, &c., removes all its effects. and builds up the whole system.
